

Dear public servants,

I am very concerned (panicked!) about my family's financial situation. We are both unable to work and any unemployment we receive will be inadequate to cover our basic expenses. Even an eviction moratorium won't help us long term since we would need a lot more than 6 months to save up for any back rent payments. Please pass legislation to stop all rent and mortgage collections until the schools are reopened and Oregon's economy is up and running again.

Thank you for your time.

Amanda Chapman
