

1. Open OHP to anyone losing health insurance due to employee loss of job or small business owner closing business.
2. Unemployment benefits extended to small business owners and anyone laid off, regardless of industry - i.e. tipped workers.
3. Suspend child support payments for parents who have joint custody or shared parenting time who are now out of work. The priority should be on parents being able to keep housing and food and other basics. Parents who are not providing any in person benefits to the child should continue to pay.

Thank you,
Lisa Pool, LAc
