

Dear committee, I just want to let you know that I am writing this laying sick in my bed. My 3 kids are home with me but I am unable to take good care of them. My husband thank god still has his job but I don't know for how much longer as he is in food service. They've already closed 2 locations in his company. My parents because of age and health reasons have to stay away from myself and my kids as I am sick. I feel helpless now and about the future. I'm worried we will lose our house. My parents have lost most of their retirement. I am very scared.

Thank you for listening,

Andrea Thorsnes
