

Hello,

I am a small business owner in Portland and do business in two locations. Mine are woman owned and operated consignment shops and I have just had to lay off 13 part time employees.

Luckily they have all been paying into unemployment, but I of course have not. I urge you to opt for the grant option in order to help keep our local economy healthy once the pandemic passes.

Thank you in advance for your time and consideration,

Chelsea Llewellyn Swanda
