

Hello,

I am a small business owner that produces events like [Portland Flea](#), [Portland Bazaar](#), [Roux](#), as well as work for restaurants doing their social media.

These events host and support over 200+ local makers, designers, artists, chefs, and other small business owners. With these events not able to take place and my restaurant client currently being closed, I am without income. \$1,000 a month would be extremely helpful to allow me to continue paying my bills and work to ensure that when this crisis is over, I will be able to continue creating a platform and space for these amazing makers that make this city so special.

I very much appreciate the time and consideration and know that you all are working around the clock during this crazy time.

Thank you so much,

--
