

I am writing to add my name as a family impacted in such a profound way by the virus crisis. My family has three members who now have no job and no income (bar and restaurant business and a physical therapist) there is no such thing as sick leave and no way for these hardworking young people to make money right now. They are scrambling but it's not going to do it. Please help! They've worked and never taken advantage of the system....they need help now!
Thank you.
