

Dear Chair, Commissioners, and Executive Director of the Oregon Liquor Control Commission:

First, a huge thank-you to the Commission and its excellent staff for its quick and considered responses to the the COVID-19 emergency. We are very aware that the OLCC and its dedicated staff are already in motion addressing this complex situation with poise and alacrity, for which we are all deeply grateful, and we humbly hope that this submission aids and facilitates those ongoing efforts.

As the cannabis community reacts and adapts to this emergent pandemic, leaders in the community have come together to draft and lend their support to the attached open letter<sup>1</sup> to the Commission, which (1) argues that the OLCC should view, and advocate for, cannabis production, processing and sale to be considered essential business activities, and (2) proposing temporary rule changes to secure safe, hygienic access to cannabis during this new age of isolation and social distancing. The draft letter was [circulated publicly beginning Friday afternoon](#), March 20, 2020, and approximately 24 hours later has received more than 1,000 unique signatures (attached hereto), including from numerous cannabis professionals, and more than 160 different OLCC cannabis licensees.<sup>2</sup>

Copied on this submission are some of Oregon's key federal, state, and local political leaders, from whom we humbly seek assistance and support in our efforts. Without this support, our efforts will fail: while the OLCC and its fine staff are perhaps our most important ally and partner in maintaining safe access, the OLCC itself does not have the power to declare the production, processing, and sale of cannabis to be essential business activities which may continue in a state of emergency. It is our sincere hope that our collective efforts will promote confidence in our industry and its regulators, and unify support behind this essential designation.

This is the time for all of us to come together as a community to ensure that no one is left behind as we weather this crisis. The proposals in our letter are necessary, first and foremost, to ensure the safe and hygienic access to cannabis for our Oregon community, including at least tens of thousands of Oregonians who use cannabis for medicinal purposes. Maintaining this safe access requires rule changes to meet the unique social distancing challenges we face, but also to ensure that cannabis companies are economically able to simply stay in business, in order to ensure continued safe and legal access to medicine. In the coming days and weeks, our communities will be faced with enormous challenges, and it is incumbent upon us all to ensure that we rise to the occasion by reacting with vision and by implementing sensible policies focused on our most vulnerable, including those who use cannabis medicinally.

**We need a state-wide consensus that cannabis production, processing, and sale are essential business activities, and we need the proposed temporary rule changes to ensure that those essential business activities may operate safely and hygienically during this pandemic. Please support our efforts, and thank you for your steady and considered leadership during these trying times.**

Sincerely,

**Andrew C. DeWeese | Attorney**

<sup>1</sup> The final version of the letter being sent (the version attached hereto) includes two nontrivial changes from the original version posted with the petition: 1) clarifying that processing cannabis (along with production and sale) should also be an essential business activity, and 2) changing the proposed curbside delivery hours to all hours when a retail store is open. We should clarify that these two changes do not necessarily enjoy the support of every signatory as they are late additions.

**Re: Proposed Initiatives To Promote Safe Access to Cannabis During COVID-19  
Emergency.**

Dear Chair, Commissioners, and Executive Director:

We, the undersigned supporters of all people who rely upon the Oregon cannabis industry for their medicine and/or livelihoods, respectfully submit this open letter to the Oregon Liquor Control Commission, in the hope that we may join together, in the spirit of solidarity and cooperation being embodied by the millions of people who are supporting our healthcare providers by isolation and social distancing, to enact sensible temporary regulations and policies to effectively protect and promote Oregonians' safe access to cannabis products during this crisis. This letter is split into two sections, the first being an argument in favor of cannabis production, processing, and sale being recognized as an essential business activity, and the second containing specific proposals for temporary rule changes to enhance and promote hygienic access to cannabis items.

**A. Cannabis is Medicine and Producing, Processing, and Selling it are Essential  
Business Activities.**

We have a legal cannabis industry in this state – and in this country – because so many people rely on cannabis as medicine. Although our adult-use program is often referred to as “recreational,” because of the success of, and lower barriers to entry to, the recreational cannabis industry, the Oregon medical marijuana program has dwindled to the point where there are only three medical-only marijuana dispensaries left in the entire state, and zero medical marijuana

processors. The number of medical cardholders has dropped from more than 60,000 prior to adult use, to fewer than 28,000 now. In other words, there is no doubt that tens of thousands of Oregonians, at a minimum, obtain cannabis that they use for medical purposes, from adult-use retail stores. Given that there is no question that healthcare providers and pharmacies are essential businesses during a shelter-in-place order or similar level of emergency, we ask that the OLCC recognize the production and sale of cannabis as essential business activities during a crisis, and advocate for this view to local and state government considering shutting these businesses down.

While financial considerations must always cede to health and safety concerns, we should all bear in mind that the economic effects of the COVID-19 emergency may hit the cannabis industry especially hard. HR 6021, the Emergency Families First Coronavirus Response Act, mandates that employers provide their employees with paid sick leave and establishes a tax credit to employers to offset such payments. However, because of the effects of Internal Revenue Code 280E, cannabis businesses will likely be unable to access the tax credits, but will still be on the hook for the paid sick leave. If cannabis businesses were also unable to operate because they were not considered essential businesses under a shelter in place order, and simultaneously hit with the obligation to provide sick leave, many cannabis businesses would face total doom.

#### **B. Proposed Temporary Rule Changes.**

The attached proposed temporary rule changes are intended to assist the Commission in making rule changes to enhance the ability of retail licensees to more safely serve customers during the COVID-19 emergency. In summary, the proposed changes (1) allow retail licensees to make home deliveries once they have submitted the OLCC home delivery form, without waiting for approval; (2) allow retail licensees to make drive-up and walk-up sales and to exempt from preapproval any premises changes that are made to enhance health and safety; (3) normalize delivery regulations to facilitate mobile service and sanitary concerns; (4) ease pre-approval requirements to increase access to capital; and (5) allow retail licensees to make curbside delivery to customers.

If we all come together in this time of crisis, we can create a safe and hygienic environment for cannabis businesses to operate and for Oregonians to safely access cannabis products. Doing so will also help save the industry from financial ruin, and save tens of thousands of precious jobs, the loss of which now would be especially grievous. We urge you to consider adopting some or all of our suggestions, and we look forward to joining with you in cooperation towards the common goal of providing safe, legal access to cannabis.

Sincerely,

The Undersigned Members of Oregon's Cannabis Community

845-025-2880

Delivery of Marijuana Items by Retailer

(1) A marijuana retailer may deliver a marijuana item to a residence in Oregon subject to compliance with this rule. For purposes of this rule, “residence” means a dwelling such as a house or apartment but does not include a dormitory, hotel, motel, bed and breakfast or similar commercial business.

(2) Delivery Approval Process.

(a) The retailer must request approval from the Commission prior to undertaking delivery service of marijuana items, on a form prescribed by the Commission that includes a statement that the retailer:

(e) The Commission may withdraw approval for delivery service at any time if the Commission finds that the retailer is not complying with this rule, the personal safety of delivery personnel is

(b) The bona fide order must contain:

(A) The individual requestor's name, date of birth, the date delivery is requested and the address of the residence where the individual would like the items delivered;

(B) A document that describes the marijuana items proposed for delivery and the amounts; and

(C) A statement that the marijuana is for personal use and not for the purpose of resale.

(4) Delivery Requirements.

(a) Deliveries must be made before ~~9~~10:00 p.m. local time and may not be made between the hours of ~~9~~10:00 p.m. and ~~8~~7:00 a.m. local time.

(b) The marijuana retailer may only deliver in a motor vehicle to the individual who placed the bona fide order and only to individuals who are 21 years of age or older.

(c) At the time of delivery the individual performing delivery must check the identification of the individual to whom delivery is being made in order to determine that it is the same individual who submitted the bona fide order. This includes ensuring that the individual:

(A) Is either 21 years of age or older; or

(B) If the individual is age 18-20, that the individual is a current registry identification cardholder; and

(f) Marijuana items delivered to an individual's residence must:

(A) Comply with the packaging rules in OAR 845-025-7000 to 845-025-7190; ~~and.~~

~~(B) Be placed in a larger delivery receptacle that has a label that reads: "Contains marijuana. Signature of person 21 years of age or older required for delivery".~~

~~(g) A retailer may not carry or transport at any one time more than a total of \$3000 in retail value worth of marijuana items designated for retail delivery.~~

(h) All marijuana items must be kept in a lock-box ~~securely affixed~~ inside the delivery motor vehicle.

(7) Prohibitions.

(a) A retailer may deliver marijuana items only to a location within:

(B) Unincorporated areas of the county in which the licensee is licensed, if a licensee is located in an unincorporated city or area within the county.

(b) A retailer may not deliver marijuana items to a residence located on publicly-owned land.

(8) Medical Delivery Exemption. Notwithstanding the delivery prohibitions in subsection (7)(a) of this rule, a retail licensee may deliver marijuana items to a patient or a patient's designated

primary caregiver at an individual's residence in accordance with the other provisions of this rule, if the retailer follows the delivery approval process set forth in subsection (2) of this rule.

(9) Sanction. A violation of any section of this rule that is not otherwise specified in OAR 845-025-8590 is a Category III violation.

4. Increase access to capital. The Commission should temporarily raise the limit for investment and loans that can be accepted by licensees without pre-approval to \$1,000,000 to allow businesses to access the capital they need to remain operational while also removing some burden from the OLCC. Such investments and loans will need to be disclosed at renewal and will be subject to scrutiny at that point. Consider requiring that licensees provide notification and other relevant documentation, such as individual history forms for investors, to the OLCC prior to accepting such loans or investments.
5. Allow curbside delivery. The Commission should allow curbside delivery, with appropriate safeguards including turning cameras out to the delivery area, checking all IDs on camera, etc.
  1. See below with new proposed OAR 845-025-2885 Curbside Delivery Rule and changes to OAR 845-025-1440 regarding video surveillance.
