

Dear friends. I am a private homeowner and have created a safe and comfortable living environment for my tenants on my property. I am also retired and spend my days maintaining the property, making repairs or hiring others as needed. Each month, the rent I collect from my tenants allows me to live simply, pay property taxes, insurance, and invest in the maintenance of the property. If a tenant has difficulty paying their rent, I will do all I can and work with them to get through these difficult times. I agree with the ideas that are being proposed in your letter and if necessary, hope that each landlord works directly with their tenants to come up with plans that are reasonable for both parties.
