

- To Whom it May Concern,
I appreciate so much that the legislature is considering some form of financial support to people that have lost employment due to the crisis we are in related to the virus. I have several rentals with good people renting from me that always pay their rent each month. Most of these people live paycheck to paycheck. One couple even pays me part of the rent at the beginning of the month and the remainder towards the end of the month. I want to continue to support them living in their apartments. To do this, I count on their rent to help pay the mortgages, utilities, insurance, and maintenance. I think that direct payments to landlords ensures that this system continues to function. Stability of housing is of vital importance during this crisis.

Thank you,
