

I have been a self employed artist for 16 years. There is no help for self employed people. I put all of my money into making a nice rental house so that in the future I can have a little something to get by. I have very nice tenants but if they can not pay, I can not pay the mortgage. I can not afford to lose my home. We live in a society that will allow people to be homeless if they don't have home. I can not afford to lose my rental house, it is all I have.

Thanks

Tamara
