

Hi there. First, thanks for coming to work every day to help Oregonian's get through this frightening time.

Please, when it comes to helping tenants, remember that many landlords need their income too. For a small mom and pop like my husband and me, our rental income is likely to become our main source of income very quickly as our own careers are in jeopardy.

Landlords (most of us) would far rather work with renters and keep them in place then toss them to the sidewalk, for heaven's sake.

Have some faith.

Thank you, Leslie and Arthur Noxon
