

I am a landlord, a small one, I only have 3 homes. My husband and I are both retired and we depend on the income from the rentals to help us deal with the day to day cost of living.

It is especially important now for us to keep receiving that income because, as you well know, our 401K is taking a beating. We lost half of our 401K in the 2008 crisis, we expect to lose the rest of it during this crisis.

All that will be left to us, once this is over, is our Social Security income and the rental income.

We also do not want to lose our renters as they are good people and have been with us for a long time.

SO PLEASE HELP US TO HELP THEM!!!

Thank you

Ester and Glen Fredrickson
