

Hello,

I am a landlord that has two fourplexes in partnership with another individual.

While I support the need of providing rental relief to working families, I sincerely hope that we as landlord's are not left holding the bag for providing the Renters relief.

We have mortgages, taxes, insurance, and maintenance(required by laws with time constraints).

We rely on monthly rents to meet these obligations.

We both work at other jobs that are also being impacted by this crisis, that further constricts our ability to meet these obligations with out rental income.

We hope and pray that all of us can get through this crisis. We are all in this together, please don't forget that we need help too.

Sincerely,
Jack Hoeck
