

I own rentals and depend upon the income not only to maintain the rentals but to pay the insurance and taxes, garbage, water and sewer. I also depend upon the income to support my family which includes a daughter in college to become a physician. I believe if a tenant is in crisis there should be state or federal funding to help them pay for their housing. Just last month I had to replace a furnace in one house and gas fireplace in another then I had a refrigerator go out and a roof repair. My costs last month were \$6000. I couldn't do that without rent.

My name is Rob Marken and I pay all my bills with rent.
