

Dear Committee Members:

In making your final decision regarding rental housing, I urge you to consider the impact on landlords as well as tenants.

I am a 74 year-old widow who depends on the rental income from my one unit. I use that money for food, medicines, and insurance. If you put a moratorium on rental payments across the board, I will be in big trouble.

Please consider people like me when crafting your proposals.

Thank you,
Julie Johnson
