

Hello my name is Aaron Verkler I live in Eugene. I have one duplex with wonderful long term renters. I am committed to providing them with a safe affordable home and hope to continue doing so during this crisis. unfortunately am not in a position to afford much disruption in collecting their rent. In my attempt to keep rent affordable my margins are pretty thin. I have a regular manufacturing job and children and my wife is a teacher. I just want to impart to you that someone like myself wants to do everything I can so my renters can stay stable in there home but if payments are missed I will pretty quickly fall into default. I know your dealing with a huge complex issue thanks so much for listening!
