**Subject:** self employed PT closure to support reduced transmission of virus> Help from the state?  
**Date:** Monday, March 23, 2020 3:54:58 PM

---

To Whom it may Concern:

As a self employed PT for the past 20 years I shut down my practice last Sunday to help reduce the risk of transmission of this virus due to the inability to safely implement social distancing.

I am not eligible for unemployment due to being self employed.

What provisions might the state provide to help many of us in a similar situation?

I support doing what is right for the social good, and for allowing our front line medical providers the time they need to help those community members.

Many small business owners not eligible for unemployment still have fixed overhead including rent, mortgages, etc.

Thank you,

Kellie Barnes MOMT, MPT

To Members of the Joint Special Committee for Coronavirus:

Thank you for your service. Of immediate concern to me is the close contact in grocery stores and pharmacies.

Can the state please implement immediately infrastructure to help establish delivery options for groceries and pharmacies.

This would significantly reduce transmission risk and help support our front line medical providers and community members.
