Health center weekly visits are down by about 66%<sup>2</sup>

7% of health center staff are unable to report to work due to COVID-19<sup>3</sup>

43 health center sites temporarily closed due to COVID-19

Source and Notes: Data presented in this fact sheet come from the Bureau of Primary Health Care, Health Resources and Services Administration, Health Center COVID-19 Survey collected on May 15, 2020. 93% (28) of federally-funded health centers responded. Survey data are preliminary and do not reflect all health centers. Some duplication of patients tested from week to week may occur. For more information, please visit <https://bphc.hrsa.gov/emergency-response/coronavirus-healthcenter-data>.

1. Total reported refers to the number of respondents since the survey period starting on April 3, 2020.

2. Visits refers to all visits regardless of service type (e.g. medical, dental, behavioral health, etc.), including virtual visits; visits are at 65% of average of weekly visits pre-COVID-19.

3. Due to staff exposure, school closure, site/service closure, and other reasons.
