

Hi,

I'm self-employed and applied for regular UI Mar. 29th because at that time we were told that was how to get the Federal cares money.

Then I had to reapply for PUA Apr. 28th which was a 6 page long complicated form that seems like the questions were asked in such a way that the answers would invite a hold up or denial of the application. For the subsequent

weekly claims we have had no less than 3 places to get this information to them so it's easy for them to think you lapsed in your weekly claims so your claim has to be restarted.

All I've received so far is a non valid Oregon UI notice and non valid weekly claim notices for a few of the weeks claimed for regular UI. I received a robot call and letter last week saying they received my PUA claim and it'll be processed within 2 weeks but today I got a letter saying I was eligible to apply for PUA but to disregard if already applied.

Also, I'm extremely concerned about the last 2 paragraphs of this article!!!!!! That's a lot of money. Something has to be done.
