

Hello,

I'm writing in to pose a question to:

The Oregon Board of Licensed Professional Counselors Appointment Candidate: Matthew Hatch

Please ask Mr. Hatch if he would request case reviews under the following circumstances:

An investigator for OBLPCT is found to have leaked details of multiple cases he/she is working on to the public, documented saying disparaging things about licensees, found to have committed assault prior to hire, then later is allowed to resign because he/she is charged with multiple felonies, including strangulation and assault.

If all of the above was 100% verifiable, with sufficient evidence, would you request that the Investigator's cases be reviewed?

If licensees had knowledge of the above Investigator's behavior and wrote the OBLPCT requesting a review of their case, would you grant that review?

Thank you,

Joy Wilson
