---

My name is Dexter and I have been laid off. I'm a bartender and my industry no longer exists. I just got this new job so I hadn't had time to save money for emergencies. Rent is due and I don't have enough money for food for the month. The unemployment department is so overworked that benefits aren't coming through. Please freeze mortgages and rents and provide assistance to those of us trapped in quarantines across the state. Please help us. We have nowhere to turn.
