This is Lisa Reynolds MD

We need more PPE for those on the frontlines.

The OHA site is an inadequate source of information (OHIO health department has a great one). - I'm cobbling updates daily from Oregonian and NYT (not from OHA which is not regularly updated).

We need to itemize our ICU beds and ventilators and get more into Oregon.

Keep with the strict measures on social distancing. Expect no school for 4-8 weeks.

THANK YOU

Lisa Reynolds MD
