Subject: Covid Relief
Date: Monday, March 16, 2020 8:48:17 PM

I am Currently in a household with four roommates each one of us in a matter of 24hrs have been laid off due to the current pandemic. While I understand why the measures were taken I am uneasy of what my future has in store for me. In a few weeks my rent will be due, my bills will be due, my funds will run out, and then my food supply will run out soon after. Because of this I beg you, please instill rent relief, put a stay on evictions, help small businesses, help those like myself and my roommates who have suddenly become unemployed. My livelihood is at stake and I am counting on you to make the right decisions that will impact myself and many in this situation directly.
