Subject: Citizen Feedback for Joint Special Committee on Coronavirus Response
Date: Tuesday, March 17, 2020 4:53:37 PM

House Members and Leadership,

My daughter is medically fragile, thank you for taking this seriously and not deflecting leadership responsibilities to OHA. Please consider the following issues and ideas

- 1) We were not able to find any test kits through our doctor in Marion County and neither could our Representative or Senator. Please prioritize and help source them so we can have accurate data.
- 2) Make sure we are leveraging what has been learned in cities and countries in Asia: Hong Kong, Singapore, and Taiwan have various success compared to neighboring China.
- 3) Reach across the aisle and invite Republicans to this meeting and keep them updated even if they are not attending.
- 4) Look into technology like Viruscan (announced in 2015)

Good luck, your efforts are appreciated!
