Subject: Coronavirus and Drivers License renewals
Date: Tuesday, March 17, 2020 11:58:25 AM

Standing around waiting to renew a Drivers License at the state office seems like it could violate the recommendations for social distancing. So, why not grant an automatic one year license extension to everyone whose license is due for renewal during the remainder of 2020? This could also help alleviate the expected crush of people applying for Real ID compliant licenses beginning in July.

Thanks
