To whom it may concern,

I work for a small restaurant in Portland Oregon. This Saturday we had our business drop by over 75 percent. We have had to cut our hours by over 50 percent and the people still working are not making nearly as much as they normally would especially now that we are only allowed to do take out. I think now is critical to call a freeze to mortgages and also rent. Also allow people to file for unemployment benefits even if they are still employed but had their hours dramatically cut. The service industry has been hit incredibly hard by all of this, I have watched almost half of my friends loose their jobs in a matter of days with no idea when they will be able to go back to work. Thank you for reading this and I hope you will make the right decisions.
