

My name is Emily Pundt and I live in Eugene, OR.

Legislative Concept 52 must be passed into law this Special Session so that Oregonians experiencing disability can access healthcare, use support from people they trust while they are hospitalized and have support when making end of life decisions.

The people that my agency supports have very specific support guidelines in place and these need to continue if any of them find themselves hospitalized. They cannot make informed decisions without the help of their ISP team. No one deserves to lose healthcare, and healthcare for someone with a disability includes their entire team's support.

Thank you so much to the Committee for considering this important issue, I want to continue to believe that the state of Oregon believes in and stands up for disability rights!
