

Hi there,

My name is Adam Cardoza and I live in Salem, Oregon. I wanted to ask that Legislative Concept 52 be passed into law this Special Session so that Oregonians experiencing disability can access healthcare, use support from people they trust while they are hospitalized and have support when making end of life decisions. Too often those who communicate differently or slower are drowned by convenience, frustration or even simple miscommunications. They should have the ability to utilize their resources that are often individuals they trust (Family, DSP, PSW, friend) that understand how they communicate.

I appreciate any consideration,

Adam Cardoza

Note: During these unique times, remember it takes all of us working together to get out of this thing ahead! Whether you're a family relying on a DSP for stabilization or a DSP relying on a family to support your livelihood, YOU are valued and integral component. Keep up the communication and work to support one another in growth and safety.
