Subject: todays hearing on visitation and people with developmental disabilities

[I need my mom and dad and carer to be able to help me if i get sick from virus sometimes i don't understand doctors i need some help to make decisions i can get scared we work as a team covid could make me very sick and these are my team they would help me and doctors and nurses they could help me get better together please let them be at hospital with me if i go](#)

This is from my son Daniel Jarvis Holland who has a developmental disability

He is 21 and without your help would be without the supports he needs without your help in passing legislation to ensure we can be with him should need arise

Thank you for your work on our communities behalf , this is a nightmare fro many of our families and our organization serves thousands of Oregon families

Thank you

Angela Jarvis Holland
