Subject: Legislative Concept 52 Access to Care for Oregonians with Disabilities Public Testimony"
Date: Tuesday, June 23, 2020 6:17:19 AM

I am in support of Legislative Concept 52 becoming law so no Oregonian with Developmental Disabilities has to experience hospitalization without needed supports for communication, safety and decision making.

My name is Judy Stepp, I live in Salem and I have a special needs grandson that requires communication assistance due to cerebral palsy. I can't imagine him not having the support he needs and trusts if he were to be hospitalized.

Please pass Legislative Concept 52 into law at this special session!

Thank you!

.
