

To whom it may concern
your proposed plans to extend the rental eviction moratorium unduly affects those of us in Oregon who rely on this income for our financial survival. I am a sole proprietor, and with that, have fewer options for my retirement savings, I purchased two rental properties as my future retirement income and this legislation would require me to pay for others to live rent free for the benefit of making you feel like you did something to help this problem. It is not fair to those of us working hard to provide for ourselves and not be a financial burden to the state in our older years. We did not choose to close our businesses down due to this pandemic, the Oregon government made that choice, and now the government wants to negatively affect some of us a second time to help soften the blow of the decisions you have made.
