

To whom in my concern

I am writing to express my support for the following changes to policing:

- All local and state officers must wear body cameras that are turned on and in use during all encounters
- Body camera footage must be made accessible to the public
- Ban choke-holds and strangleholds
- Ban use of tear gas and other chemical weapons
- Exhaust ALL alternatives before shooting
- Prohibit shooting at running individuals and moving vehicles
- For every police stop they must report the instance as well as the person's race, gender, and ethnicity
- Officers must be held responsible to report other officers for wrongdoing.
- If they are found guilty of violating an individual's civil rights, officers must be held personally liable for damages up to \$25,000
- Reallocation of police funding to social services and education serving BIPOC communities
- END QUALIFIED IMMUNITY

Thank you for your time,
