Task Force on Universal Health Care – Draft Project Arc

Task Force Considerations

Based on a number of external factors, there are several variables or unknowns that will impact the Task Force in the coming months:

- Compressed timeline to complete activities specified in SB 770: (1) Task Force workplan Sept. 2020, (2) 2021 legislative session, (3) report due during 2021 legislative session (June 2021 at the latest)
- COVID-19 pandemic, virtual meetings, competing priorities
- Meeting frequency and duration
- Funding for staff and professional services – Joint Committee on Human Services Co-Chair 2020 Rebalance Plan – Agency Reduction Detail ([list](#))
- Task Force Structure - creation of and support for two advisory committees, Consumer and Long-term Care, and potentially additional technical/advisory committees (sections 2.10 and 6.5)
- Establishing a public engagement process (section 6.3)

Proposed Draft Task Force Rules and Operating Procedures

Selection of Chairpersons

Next Steps - Member Guidance

- What recommendations would you offer to staff, chair and vice-chair for how to prioritize the work for August and September?
- As a member, what key issues do you want addressed immediately?
- From your perspective, what will the Task Force need to be successful?
