

IT HAS TO STOP.

We are in a WORLDWIDE pandemic that ATTACKS THE LUNGS AND IS SPREAD THROUGH THE AIR. I cannot stress this enough, we cannot use tear gas ever, but especially right now.

Saturday I went down to the JC and I stood peacefully with my sign on the corner, and they tear gassed us. It looked like a fucking war zone, there were people everywhere huddled over removing their masks and vomiting the contents of their stomach out, retching. Not only was it horribly because of the physical pain but knowing that our government is doing so little to protect vulnerable populations from COVID and the fact people now have no other option than to remove their mask, expose themselves and others to COVID 19 while practicing their FIRST AMENDMENT RIGHTS.

We cannot use tear gas during a worldwide pandemic that attacks the lungs and spread through the air. Again, WE CANNOT USE TEAR GAS ON THE PUBLIC KNOWING IT WILL MAKE THEM COUGH, WRETCH, AND THROW UP, WHILE WE ARE IN A WORLDWIDE PANDEMIC THAT ATTACKS THE LUNGS AND SPREADS THROUGH THE AIR.

thank you for your time,

Brizna Garcia
