

Hello,

I am submitting a comment for this hearing to demand police accountability. For far too long we have allowed law enforcement to operate without proper public accountability. This has led to hundreds of cases of abusing their power, especially towards disadvantaged communities. Ensuring our law enforcement can focus on crime that actually puts communities at danger, rather than targeting minorities or harvesting fines is vital. Even when a disgraced law enforcement officer leaves for another jurisdiction, the public needs to know if their potential new cops have legitimately resigned or have been fired for failing to fairly protect the community. We cannot just keep moving bad cops from county to county, city to city.

Sincerely,

David Ramer, Beaverton, Oregon
