

Hello,

I am a 10-year resident of Portland, Oregon. I support the bills coming in front of Oregon legislature to begin addressing the power of police and reactions to protestors: <https://www.opb.org/news/article/oregon-lawmakers-tear-gas-ban-police-identification-requirements/>

This is one article that shows that our current system is broken. Even when a police officer is justifiably fired for murdering an unarmed man, he returned a year later and was given backpay! This is unacceptable power of police unions.

Additionally, I will be following the progress of policies listed in <https://www.reimagineoregon.org/>. They are very important to me.

Thank you,
Zoe Kay
