

Thanks so much to the Task Force for Universal Healthcare. As a person who is 60 and doesn't yet qualify for Medicare this would be great. Although I'm in great shape, my wife has Medicare and can go to the doctor whenever the need arises. Because my healthcare has a huge deductible I generally wait because I don't want to incur too much expense. Also, we have a family member who is a hard worker and contributes so much to the Oregon economy. He's Transgender and as you know our Federal government is rolling back their access to healthcare. I look forward to Universal Healthcare. Our nation should have had this years ago, but Oregon can pave the way. Thanks
