

I'm covered by Medi-care.

My 52 yr. old wife and 11 yr. old son, both in excellent health, are covered by an \$800 per month policy with a deductible of several \$1,000's.

In other words:

- We pay over \$800 per month to insure 2 people
- against a risk that does not exist
- with a deductible that requires our payment for every medical service we've experience for several years!
