

"I live in Medford, Oregon. I truly appreciate the Task Force members work on on Universal Health Care, volunteering to do this essential and historical work to bring health equity to all residing in Oregon. The "Purposes" to which all of you have committed could not have been better during this time of crisis. It is:

- (1) Improving the health status of individuals, families, and communities;
- (2) Defending against threats to the health Oregon citizens;
- (3) Allowing patients to focus on their health, rather than overwhelming financial worries;
- (4) Providing equitable access to person-centered care;
- (5) Removing significant barriers to health care;
- (6) Removing financial burdens for both the health care practitioner and patients;
- (7) Allowing patients to participate in decisions affecting their own health and the health care system;
- (8) Establishing measurable health care goals and guidelines that meet the highest standards; and
- (9) Promoting quality improvement and fostering organizational collaboration.

I have family members and neighbors who depend on your efforts, it makes all our lives better.

Again, I thank each and every one of you for your commitment.
