

My name is Jordan Hiller, I am a resident of Portland, Senate District 23, House District 45.

I write in support of the slate of reform bills that are being drafted and discussed: LC742, LC 743, LC 745, LC751, LC761, LC762, and LC63.

I am extremely concerned that police departments throughout our state have become shielded from public scrutiny and oversight. The result is all too clear: a culture of police impunity and recklessness that results in the loss of lives, especially those of our Black citizens and other people of color.

I urge the committee to act boldly and expeditiously, to demand that our police departments truly "serve and protect."

Sincerely,

Jordan Hiller
