

I urge the legislature to take up LCs 742, 743, 745, 751, 761762 to dramatically change how policing is done in the state of Oregon. Yes to creating a database about misconduct by cops in prison guards. Just to illuminating chokeholds. Yes to requiring proper identifying information on police uniforms. No more teargas or CS gas or "less-lethal" weaponry or LRAD acoustic weaponry should be used on citizens. And yes on changing standards for justifiable defenses when cops use physical or deadly force. Thank you for bringing these measures to a vote. They are sorely needed for the whitest state in the nation to make progress on racial equity and justice.

Merry Ann Moore
Resident, Oregon senate district 2 and house district 41
