

Committee members,

I'm appalled at the notion that there is systemic Racism, the only racism I'm seen is from the BLM Marxists and the Antifa terrorists that are assaulting police!

So strange that "Hands Up Don't shoot" was a bald-faced lie and now due to the release of George Floyd police bodycam video, so is the "I can't breath" crap, as George was a combative individual, high on drugs to the point of an overdose,, there was no racism involved, those claims are made up as is most of the garbage that is being thrown at our Law enforcement agencies.

Why are you caving to the Radicals that demand Law Enforcement to give rioters, looters, and criminals a break! I can only laugh when limits are made that protect rioters when they wear fake Journalist badges, or that a person that does not have a home is a protected class.

These Legislative Concepts are a JOKE! What we need is Law and Order, let the experts define their needs as was done in the last special session.

Get Real!
