

To whom it may concern. I was told to come here and leave my story and experience with unemployment. I was let go from my job June 12th. I applied for unemployment after already receiving benefits for lost hours, I immediately stopped receiving benefits after reporting my lost job. I couldn't find work in the medical field because nobody was hiring. I finally was able to find a job a month later but was only working severely part time hours even tho it was a full time job. I claimed every week and reported everything. I called and was on hold for 3 hours, finally I got through just to be told my claim was in judgement and it would be 12-16 weeks of a wait! I am already 10,000 behind on my mortgage and 8,000 behind on my car payment. Now my car payment was put on the back of my loan but my mortgage company won't do that for FHA loans, so I have a small period of time to catch up on my mortgage before I lose my first home and me and my children and grandchild are displaced. I have worked my whole life since I was 17 years old, now 40. Never ever without a job for even one day. There is unemployment for a reason and I have worked long and hard and deserve some of my earnings back, I was unemployed and really need the help from my own hard working years!! I have called and called and called all the numbers, local branches included, only to be on hold for 1.5 hours or more then get cut off. This is extremely maddening and is causing a lot of us voters to not want to support and of the people in control of our livelihoods, anymore. So many have decided against voting and started retaliating with petitions and such. I myself just want to breathe easy again and get my back pay so I can get caught up on my mortgage finally before it's too late. Please please please I beg you to please help me get my claim processed very very soon!! We are all in desperate need, at the bottom of the totem pole down here.
