

My name is Rica Torrez, I'm 25 years old and currently unemployed due to this pandemic. I had a job working for Children's protective services and was working at home , due to a high risk pregnancy that the doctor explained I would need to stay home and getting COVID would compromise my pregnancy. Due to this reason when the company started back going to work , I had to quit my job for my health. I filed for unemployment on 6/26 and have not received one payment . I continue to get letters stating there is questions in regard to my work search but no explanation on what the questions are. I am a mother of two and have survived on my savings from my job. I have called unemployment everyday and it makes a busy tone, when I finally got through to unemployment I was put on hold and then it hung up on me. Any word would be greatly appreciated on when I would expect a payment as , trying to pay my bills is running thin without any income . I continue to look for work and do what is needed to receive unemployment benefits . My phone number is 559-852-9008 or my email address is acceptable as a form to communicate rica.torrez@yahoo.com Sent from my iPhone
