Dear Oregon Lawmakers and elected Officials

This is my 2nd email, the 1st a perfect example of why myself and so many fellow Oregonian's are left behind and ignored. My 3g cellular device preforms below modern applications.

I would like to ask you, the policy makers. Why is it the burden of the citizens of our beautiful state to suffer because Oregon took a gamble by NOT reinvesting in Employment Dept. software??

I have an email dated May 22, 2020 stating my benefits would start in 2 weeks. I still haven't received a dime. I have no faith in anything my government tells me. By not updating Employment System you decided to put our citizens at risk of a major disaster happening the Department couldn't handle.

I'm ashamed for all of you, even if you take no responsibility yourselves. History will show my granddaughter the lack of concern by Oregon State in the health and well being of it's citizens.

That being said, I will now resubmit every weekly claim to new Employment System with my 3g cell phone I bought online for \$35 because I sold my smart phone to pay for my cellular service. I would use my laptop but I sold it to pay my utility bill.

This email may seem bitter and hard for you as individuals to understand since you never went a week without a paycheck.

Thank you
R. Tinney

Dear Committee Members

Thank you for giving me a forum to tell my personal Global Pandemic experience. I will be brief and stick to facts.
