

Portland Police

I want to know if cops have been fired for their brutality in the last 100 days. I want to know who and how many were fired. I want to know why countless instances of police brutality caught on video are not addressed. I want to know why officers like Brent Taylor and Michael Congdon are still out there brutalizing people night after night.

I want the police union held criminally responsible for the destruction they have caused.

I want you to stop pretending any dumb bullshit a cop says is "lawful orders".

I want PPB to be abolished, and for Portland to start again with new people and a new agency with a goal to actually protect and serve the public.

I want transparency and accountability and I want educated professionals to replace these recreational abusers.

Stop responding to every call with a gun on your hip. Stop killing people in mental health crises. Stop "sweeping" homeless people off the street like they're trash and aren't real people with real needs. Don't wear guns around children. Just be less like a dystopian hellscape of authoritarian violence and more like civil servants.

I truly hate you, I don't trust you, I will never call you for help, I assume I would get raped if I ended up alone with an officer too long. That is literally how I feel. That is how you make me feel. I am scared of you. Get therapy.
