

PPB

I am writing to share my experiences while legally observing the PPB in these last months.

I have seen PPB officials with their knee on the throat of a citizen while ripping off their mask and making them. This is only 1 DOCUMENTED instance. These officers are not being criminally prosecuted the way they should.

I understand there is police reviews process, however, the process is a sham because the police union and their lobby.

Prosecute bad cops. Fire bad cops. Stop hiring racist cops.
