

Support for Police Violence Restraint Bills

Dear Oregon Legislators,

I would like to inform you that I support all of the Police Violence Restraint bills currently being considered for the upcoming legislative session to be called in September. In particular, I support LC0019 requiring all disciplinary records for all state police officers to be made public. While all of these bills are important and should be passed immediately, public confidence and faith in our law enforcement community in Oregon is slipping fast and must be improved upon now. LC0019 will serve to enhance the transparency and believability of the actions of our law enforcement community and allow Oregonians to see our law enforcement in a much more positive light.
