

Please support LCs 17, 18, 19, 20

Hello,

I am writing in support of the following Legislative Concepts: 17, 18, 19, and 20.

Police officers are supposed to protect and service the community.

In that, they should be accountable to these ends. All disciplinary records should be made public. This is a LC that could revolutionize how police officers behave. Not having the police unions to shield poor behavior from public view will greatly deter such poor behavior.

Use of force reports (LC 20) should be expanded and strengthened. If departments do not comply, their funds should be suspended. Use of force should be rare and for defensible reasons. Officers must be accountable for their behavior.

I hope you will support all of these LCs and future legislation which reigns in police brutality and systemic racism. Thank you~
