

LEO Use of force restrictions.

Hi, thank you for doing this. I am writing in support of many of the protections that are proposed in various bills for this legislative session that would limit the scope and tools of force use for police in Oregon. Reading the official lobbyist response to these bills make it clear their number one priority is to avoid any changes or accountability, and they have little regard for the violence and discrimination we've seen at their hands so clearly the last couple of months.

Please do all you can to hold LEO accountable for their violence, and distribute monies to things that will actually reduce crime, like social work, education, housing availability, health care, etc. We don't need more cops, we need more care.

Thank you.
